Guide for Proposal Submission

RAW MATERIALS FOR THE SUSTAINABLE DEVELOPMENT
AND THE CIRCULAR ECONOMY

Why reading the guide is (almost) mandatory?

- Detailed description into the pre and full-proposal documents;
- Step by step on how to fill and write the proposal into Form A;
- How to fill the Ethics table, Gantt Chart, Forms B and/or C;
- Provides a checklist for the consortium coordinator that covers eligibility criteria and national/regional funding rules;
- Insight into the ESS tool.

Benefits

Funded projects

Testimonials

- Access to international level researchers and large R&D centres, which motivates small entrepreneurs and companies to technological, cultural and intellectual growth;
- Opportunity to set up new international collaborations with academic and/or industrial partners or strength existing knowledge networks with experience institutions;
- Exchange of knowledge and cooperation for joint actions and technology transfer;
- Consortium is easier to create and operate than the European projects;
- The application and selection stages are simpler than the European projects;
- Good visibility of the project and more focus on research;
- Easy use of ERA-MIN template and reporting to the Joint Call Secretariat;
- Possible to submit risky projects (including low TRL);
- Production of relevant results for linked H2020 projects;
- Capacity building – human resource development & funding of PhD students.

Tips

From coordinators

For writing the pre and full-proposal

- Permanently prospect potential partners and maintain contact with them;
- Start early building the consortium, especially with industrial partners;
- Must have an industrial application or be oriented towards an industrial development and application;
- Use the Partner Search Tool;
- *“First find the question and then the partners”;*
- Must have concrete and measurable outcomes;
- Communicate openly and frequently;
- Clear information and objectives between enterprises and universities;
- Network with other projects;
- **Don't leave the submission for the last day;**
- Don't expect the others to have read all the call documentation;
- Building a successful proposal takes time (aprox. 6 months) and considerable effort;
- Check the eligibility of the consortium partners per country;
- Budget must be reasonable.
