

ERA-MIN NEWSLETTER

November 2024

The 2024 Raw Materials Week, held annually in Brussels, is a pivotal event for the raw materials sector, bringing together policymakers, industry leaders, researchers, and stakeholders from across Europe and beyond.

Key topics include critical raw materials, circular economy practices, innovation in mining technologies, and strategic partnerships to reduce dependency on external sources.

This year's edition is focused on accelerating the green and digital transition by securing sustainable and resilient raw materials supply chains.

A scoping [workshop on the Raw Materials co-funded European Partnership](#) on 9th December is co-organised by ERA-MIN3 (by invitation only).

Attendees will discuss the importance of international cooperation, resource efficiency, and investment in sustainable extraction and recycling technologies.

TESTIMONIALS

Video Testimonials of ERA-MIN funded projects offer a great overview of what has been funded under the three ERA-MIN networks on Raw Materials and showcase how the non-fuel, non-food mineral raw materials research and innovation is developing in Europe.

New testimonial videos have been shares on ERA-MIN social media channels, LinkedIn and X. About 40 video testimonials are now available. Find below preview examples of some of the new videos.

News

Below a summary of the most relevant news for and from the ERA-MIN community published during 2024 second semester shared on social media.

Raw Materials Week 2024 - Registration Open

14/10/2024

The Raw Materials Week, that will take place in Brussels from 9th to 13th December 2024, has open the registration

SAVE THE DATE: IRTC25 Conference

10/09/2024

IRTC25 Conference "From Raw Material Policies to Practice" will take place in Ljubljana, Slovenia, from February 19-21, 2025

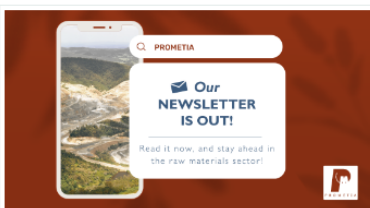

SRIA Validation Workshop on Advanced Materials

05/09/2024

Next 19th of september will take place a workshop that will focus on the Strategic Research & Innovation Agenda (SRIA) for Advanced Materials set by the IAM4EU partnership.

Events

The most relevant events for the ERA-MIN community during 2024 second semester are listed below.

The **Indtech 2024 conference**, held in Namur from June 3rd to 5th, gathered over 200 participants for exchanges on the importance of science and innovation in securing Europe's position at the forefront of global manufacturing.

Over three days, speakers and panelists emphasised that fostering close collaboration between industry and academia to develop resilient new technologies is a must, requiring a multidisciplinary approach.

Key topics included European competitiveness, advanced materials, and the importance of complete value chains within Europe to reduce dependence on foreign countries in critical sectors.

Europe also faces a talent drain as experts, emphasizing the need for economic aspects in European projects to strengthen industry and retain innovation.

INDTECH
CONFERENCE ON INDUSTRIAL TECHNOLOGIES

03/06/2024 - 09:00 TO 05/06/2024 - 18:00
NAMUR, BELGIUM | 03-05 APRIL 2024

The 2024 Raw Materials Information System (RMIS) Workshop, co-organised by the JRC and the European Health and Digital Executive Agency (HaDEA), took place on 9-10 October at HaDEA's premises in Brussels.

The event gathered policymakers, EU agencies, research institutions, and academia to discuss the role of pan-EU raw materials knowledge developments in the community in supporting Europe's green and digital transitions with a focus on the RMIS.

Ms. Marina Zanchi, Dr of HaDEA, highlighted the importance of collaboration between the European Commission, HaDEA, and EU-funded projects, including ERA-MIN, which was represented by Mr. Tobias Kampmann (Vinnova. Sweden)

The workshop aimed to strengthen engagement between EU-funded projects and the RMIS. ERA-MIN's contributions were pivotal in discussions on sustainable supply chains and resource management, aligning with Europe's green and digital transitions. The workshop emphasized the need for ongoing collaboration between EU projects and the RMIS to support critical raw material policies and the CRMA.

Information Day on Strategic Projects of the Critical Raw Materials Act
30/04/2024 - 14:00 TO 16:00
